

Blue Brick School 2023 Executive Summary

Introduction

Blue Brick School is a free, open-source platform that enables educators to build, share, and customize gamified e-learning activities and read-aloud books.

When children play Blue Brick School in their home language, it increases their motivation to learn and develop the skills they need to succeed in school. Our platform tools allow easy modifications so that children from minority backgrounds can see and hear their identities affirmed on screens.

Foundational Literacy

Once registered on Blue Brick School, educators can easily share or customize our foundational literacy course designed for 4-5 year olds. It is available in English and Spanish, and will soon be translated into Tamil and Sepedi. Developed with our free Lesson Builder, the course includes:

- 3 levels, 52 lessons, and 207 activities
- A collection of read-aloud children's stories built with our open-source Book Creator.

Make A Difference.

We are calling on investors to become a select donor for Blue Brick School. Help transform education globally by sponsoring one of the following:

- New activity and course development
- English as a Second Language Course development
- Add a language of your choice to the Blue Brick School platform
- Tablet-based programs in schools

**Blue Brick School is an ed-tech initiative of the US-based 501(c)3 non-profit 'Visions'.*

90%

of children in low-income countries are unable to read and understand a simple text by age 10

3 billion

people have never used the internet

40%

of learners globally do not access education in a language they understand

Our Mission

Blue Brick School's mission is to enable e-learning for every child in their home language.

Tablet-based e-Learning

To reach under-resourced children globally, we partner with funders and organizations to run online and offline tablet-based programs. The Blue Brick School offline package includes: training, 10-20 tablets, headphones, one teacher laptop or raspberry pi device, and a charging station.

What Sets Us Apart:

31 customizable activity templates

Easy translation tools for local language learning

Teacher Dashboard to assign content and track learner progress

Research-based & standards-aligned
